

Birthright-Humble.com

You will find 2 true stories in the form of video as you open the website. Both are from present volunteers.

The first one is about the volunteer's mom and the fact that she planned on aborting her 50 years ago. As you listen to her speak of this you will notice that to this day she doesn't know why her mother decided not to go through with it.

The second video is of a volunteer that found out she was pregnant at 16. She actually went to a Birthright office. She faced the same things our clients face today. She didn't want an abortion so the guy left.

These videos were used at Kingwood Bible Church before the collection for baby bottle boomerang.
